About This Game

Gods of the Fallen Land is an action-strategy game centered around base building and villager management.

Take on the role of a leader trying to rebuild humanity in a broken and dangerous world. The area layout changes with each play through and your villagers are randomly generated, with their own names, appearances, and traits. Build your defenses and keep your followers safe through the night, while collecting and managing your resources during the day to face the ever growing threats. Lead your followers into battle and make strategic decisions on what to develop and build to survive.

Take lead, manage your village, and prepare your defenses as you fight to survive against the terrors of the night.

Features

- Procedural map with a different layout every game you play
- Multiple map types with unique enemies and weather
- An upgrade tree system allowing you to specialize your strategy
- Multiple playable characters with their own unique abilities, upgrades, and buildings
- Standard mode in which you progress towards an ending while fighting stronger enemies.

-
- Endless mode which tests the limits of how long you can survive.
 - Randomized item drops from enemies and world objects allow for unique strategies and opportunities
 - Level up your leader to unlock new skills to support your followers or directly attack enemies
 - Assign your followers to various jobs such as gatherers, builders, soldiers, archers, priests and more to have them carry out different duties.
 - Traits give followers unique quirks, allowing them to excel at certain roles.

For the directest of mash up comparisons,
holy smokes is this game exactly a mashup of Risk of Rain and Rise to Ruins.
both games i have sunk a nice number of hours into.
plus thats allot of R's.
Risk of Rain, Rise to Ruins, Rocks.
there are some issues to be Resolved. i am actually only able to scratch the surface of the game due to some fairly serious
optimization issues. i get some frame rate issues once things start happening.
im going thumbs up in the HOPE HOPE HOPE that i get to play this one to the fullest at some point.
PLus as i have said, the mashup is awesome.
Risk of Rain, Rise to Ruins. awesome mashup.
GG dev.
Fix IT the rest of the way plz!
and gg.

P.S. my issues seem to stem from the fact im using a laptop. so it might not even be an issue if you have a real computer.
GG.
