About This Game

Welcome to **The Outer Rim**, where fast paced action and space combat meet.

The Outer Rim: ***Survivo*****r** is an early access version giving you a taste of what is to come. Play the Survivor missions where you'll be constantly bombarded with enemies to attack, and be attacked by - How long you can last is the question as these missions never end. The Campaign mode (single player mission based game play) will be added as a DLC once completed.

A range of missions are available for you to try for free and give feedback while I further develop the game.

Take control of 5 different space ships with 9 different weapons flying in a full 3D universe. Missions include: protect your command ships, take out enemy command ships, and protect bomber runs. The missions take place in a mix of locations including space & planets.

Collect power ups by taking out enemies ships, giving you a range of items to help you last longer - extra missiles, new weapons, flares, nukes, multi-shot missiles and more.

Command your Wingmen (on certain missions) to help you last longer - they can attack the targets you specify, defend you when you're in trouble, just tell them what you want them to do. They've got your back!

Title: The Outer Rim: Survivor
